

Powerful solution to create and edit EDID files for an optimal compatibility between your sources and displays

Overview

AW EDID Editor can help systems integrators and AV professionals to set the preferred format of any input or to solve compatibility issues they may encounter with the sources connected to any **LiveCore™** series, **Midra™** series or **VIO 4K** processors (resolution problems, audio support...).

Steps

- Use your Remote Controller Software (Web RCS or RCS2) to extract the EDID information from the display to your computer
- Use **AW EDID Editor** to create a custom copy of the extracted EDID file
- Use your Remote Controller Software (Web RCS or RCS2) to upload the custom EDID file and attach it to any compliant input plug

AW EDID Editor is available on www.analogway.com

*All technical specifications and videos are available on www.analogway.com

AW EDID Editor at a glance

- ▶ Open and edit any standard EDID file (text or binary)
- ▶ Simple, intuitive and resizable user interface
- ▶ Supports EDID versions 1.3 and 1.4
- ▶ Supports CEA-861-F Extension (versions 1, 2 and 3) with 4K formats
- ▶ Available for Windows and Mac OS

Free tools also available on www.analogway.com

- ▶ **AW Gateway:** Take control of any **Midra™** series switcher with multiple interfaces simultaneously
- ▶ **AW Simulator:** Simulate Analog Way multi-format converter **VIO 4K** and **LiveCore™** image processors on your PC or Mac
- ▶ **AW Screen Frame Cutter:** Tool to split any wide-screen image into multiple still backgrounds for your multi-projector Soft Edge Blending or for your Custom Canvas screen setup
