

# EIGHT-CHANNEL DANTE® AUDIO EXPANSION CARD

Ref. OPT-AUDIODANTE-VIO4K

## Eight-channel Dante® audio expansion interface for the VIO 4K multiformat converter

The Dante® audio expansion interface can instantly Dante-enable your VIO 4K multi-format converter. It provides 8 bidirectional audio channels and full Dante® network audio redundancy over Gigabit Ethernet. The Dante® audio expansion interface supports the sample frequencies of 44.1 KHz, 48 KHz and 96 KHz.

Audinate's Dante® technology provides high performance digital media networking that meets the quality and performance requirements of professional live sound, AV installations and broadcast and recording systems. Designed to fully exploit the capabilities of today and tomorrow's networking equipment, Dante® provides media transport mechanisms that eliminate many traditional audio network design restrictions. Dante makes it easy to set up robust, flexible digital audio networks with virtually unrestricted performance.
